Technical drawing of a two-post vehicle lift. The drawing shows a side view of the lift with dimensions in millimeters. Key dimensions include: total length $L=5413$, post width $B=1183$, distance between posts $A=3100$, and distance from post to end $C=1130$. Vertical dimensions include total height $H=2084$, height to top of post $H_3=2773$, height to top of beam $H_2=2567$, height to top of post $H_1=2000$, and height to top of beam $H_5=3017$. A horizontal dimension of 500 is shown for the base. Arrows indicate a "柱移動範圍" (column movement range) of 100 units. The base is labeled "K".
